Wildlife Rescue/Rehabilitators

Rebecca McKeever

Birds & small animals including squirrels, fawns and opossums (no raccoons)

[North America - International Wildlife Rehabilitation Council \(theiwrc.org\)](http://theiwrc.org)

Critter Control – College Station: [Founded in 1983, Critter Control®](#) was developed around an entirely new vision for resolving nuisance wildlife and pest problems. All of our locations consistently practice humane wildlife management. We handle animals large and small, with a focus on vertebrate pests such as squirrels, rats, mice, snakes, raccoons, bats and a variety of birds. Our services focus on getting rid of wildlife and pest, repairing any damage they may have caused – then keeping them from re-entering your home or business.

Transportation

We Move Pets, LLC is a small family-owned ground transport business based in Brenham, founded in 2004. We drive beloved pets coast to coast, door-to-door anywhere within the continental United States. No local moves at this time, only out of State.
